RANNTA

Rebuilding Value on TON

RANNTA: Rebuilding Value on TON

A scalable, secure, and symbolic token for the future

Introduction

RANNTA COIN is a decentralized, community-led token built on the robust and scalable TON (The Open Network) blockchain. More than a digital asset, it carries a profound symbolic resonanceemerging from the memory of the devastating Los Angeles fire.

It stands as a symbol of reconstruction, renewal, and a return to greatnessechoing the timeless call to make America great again.

Purposefully designed for speed, affordability, and security, RANNTA serves not only as a practical financial instrument, but also as a beacon of economic and spiritual rebirth in the age of decentralization.

Key Features

- Ultra-Fast Transactions: With TONs multi-threaded architecture and dynamic sharding, RANNTA enables near-instant transaction speeds.

- Minimal Fees: Thanks to TONs optimized gas system, RANNTA operates with negligible costsideal for micropayments and staking.

- High-Level Security: Built on BFT consensus and advanced smart contract infrastructure, the token is fortified against threats.

- Seamless Scalability: TON can handle thousands of TPS, ensuring RANNTA scales effortlessly as demand grows.

Tokenomics

- Token Name: RANNTA COIN

- Symbol: RANNTA

- Blockchain: The Open Network (TON)

- Decimals: 9

- Total Supply: 130,000,000,000

- Smart Contract Address: EQBCY5Yj9G6VAQibTe6hz53j8vBNO234n0fzHUP3lUBBYbeR

- Blockchain Explorers: TONScan / Tonviewer

Symbolism & Mission

RANNTA is more than a tokenit is a symbolic rebirth. Born from the ashes of the Los Angeles tragedy, it transforms grief into purpose. RANNTA calls nations to rise againanchored in resilience, unity, and decentralized sovereignty.

Rooted in esoteric codes and ancient numerical frequencies, RANNTA aligns with waves of transformation and awareness. It is not merely a currencyit is a movement, cryptographically etched onto the blockchain.

Use Cases

- DeFi: Participation in swaps, staking, and liquidity pools on TON.

- NFT Payments: Use RANNTA to acquire symbolic and spiritual NFT assets.

- Governance: Planned integration for on-chain community voting.

- Staking Rewards: Future dApps will incentivize long-term holders.

Roadmap

- Phase 1 (May 2025): Launch of token, official website, NFT introduction.

- Phase 2 (June 2025): Liquidity pool activation on TON.

- Phase 3 (August 2025): Listing on TON-native platforms.

- Phase 4: DAO, cross-chain integrations, and advanced staking features.

Commitment

RANNTA is committed to transparency, symbolic coherence, and sustainable growth. Built upon the

foundation of decentralization, the project constantly evolves through innovation, purpose, and community alignment.
